FOR IMMEDIATE RELEASE

Thursday, September 4, 2025

Outdoor siren testing out of sequence for the Johnson County North Zone

Due to recent repairs needed on the outdoor warning sirens located in in the North Zone (north of Lake MacBride -Solon, Swisher, Shueyville and rural areas), Johnson County Emergency Management Agency will test at 10 a.m. on Wednesday, Sept. 10, 2025.

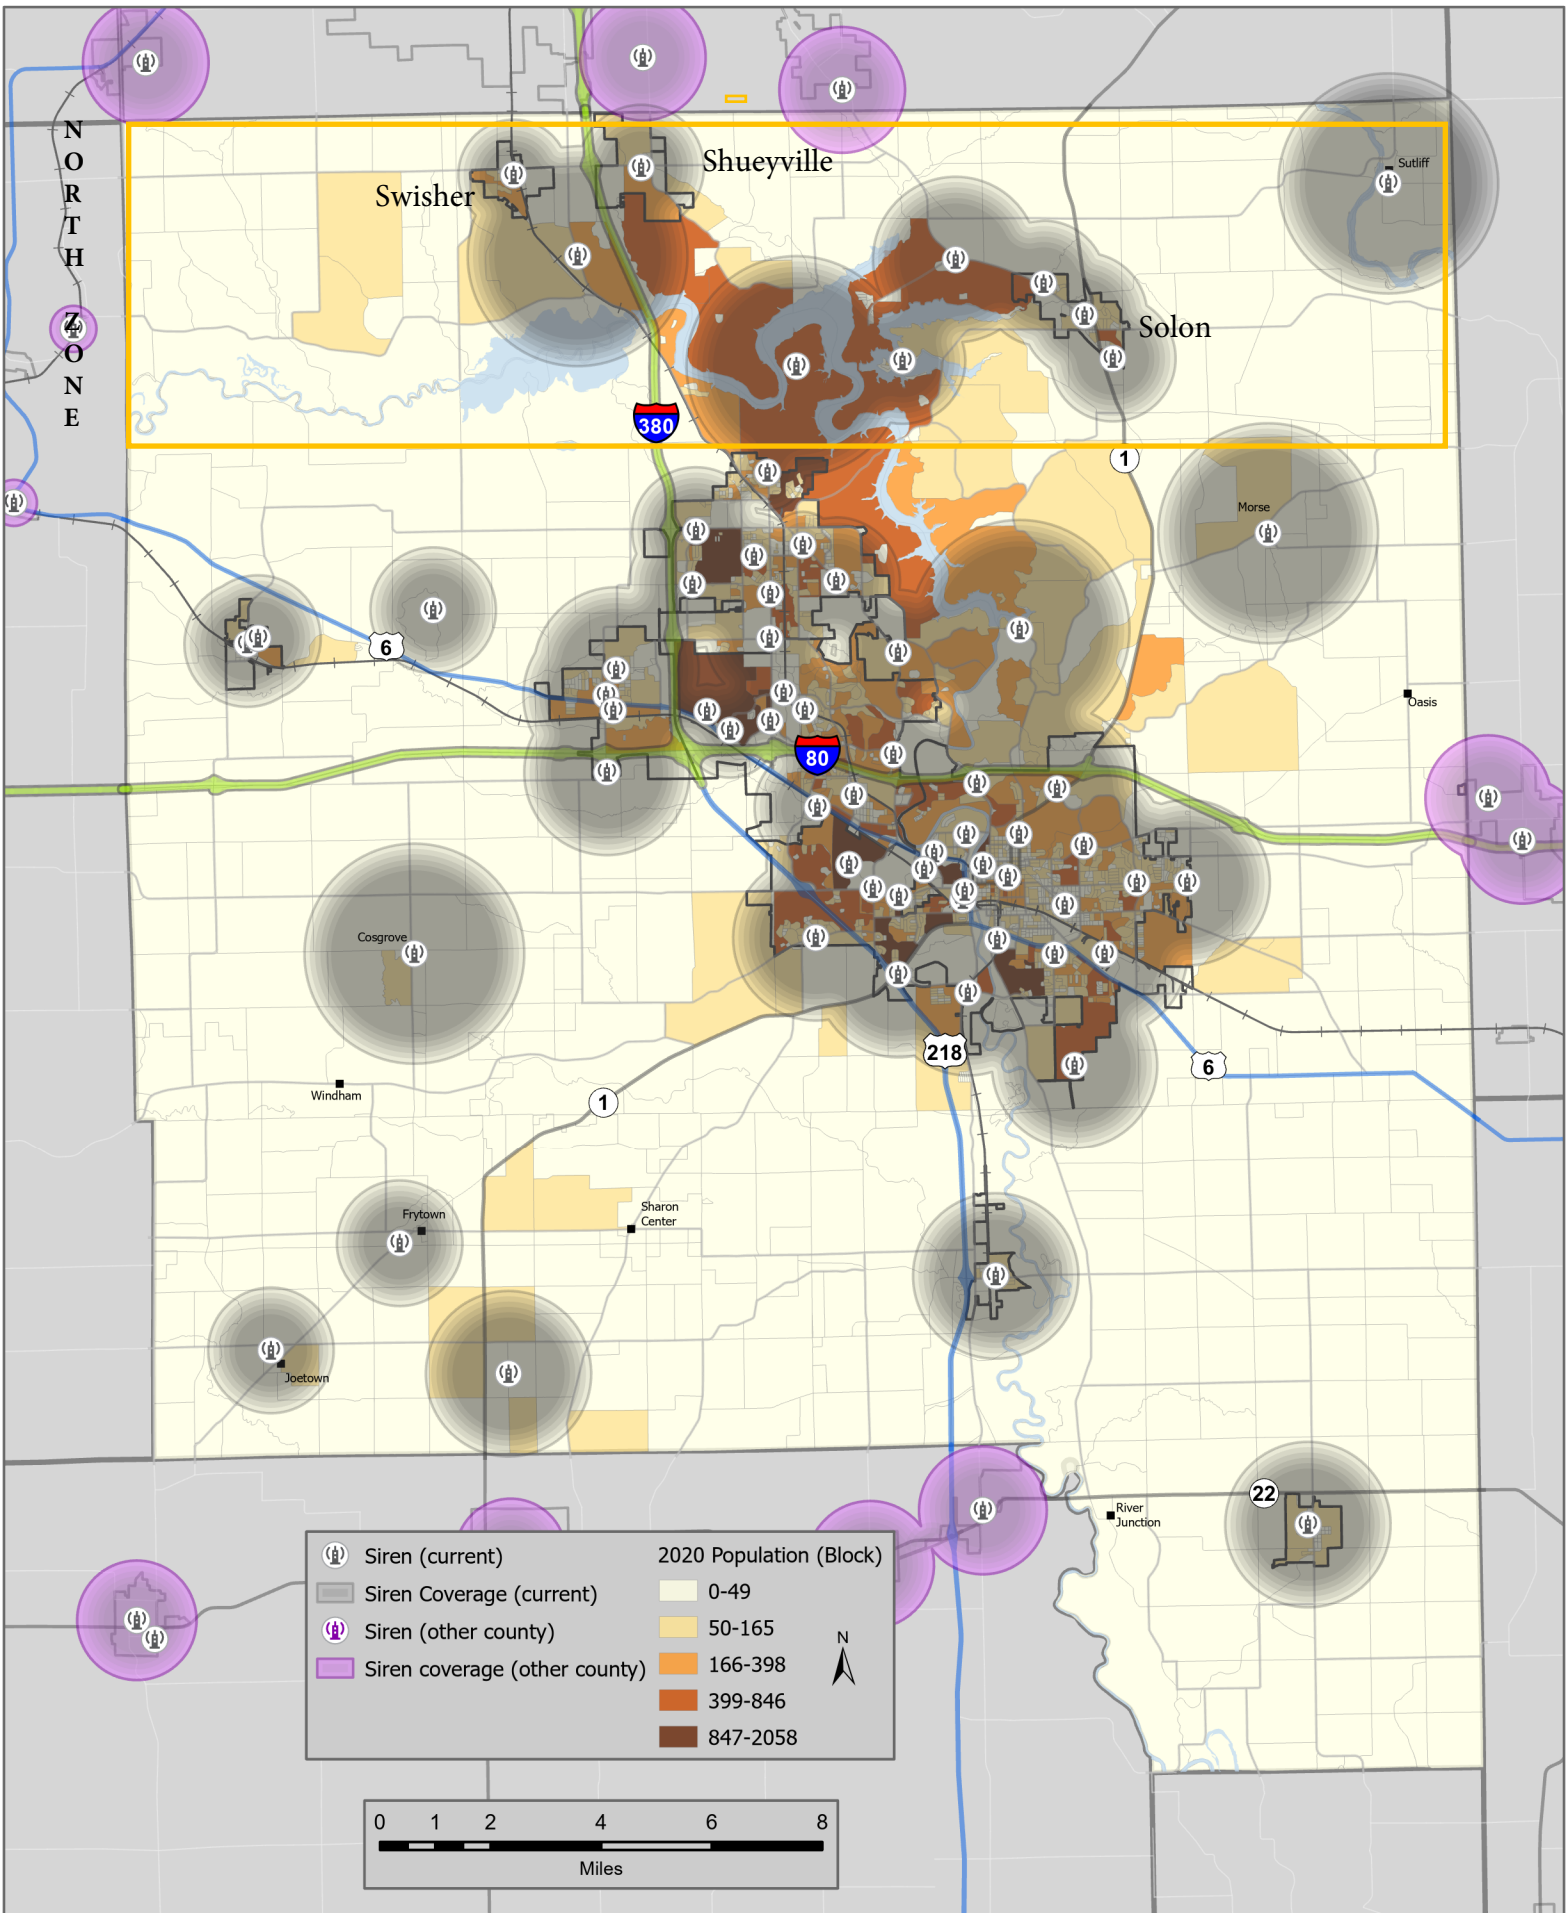

The test will be isolated to the North Zone area operated sirens only with a series of short tests each lasting less than three minutes between 10 a.m. and 10:15 a.m. on Sept. 10. This is not a county-wide test

This test is essential to ensure the full operational capability of the sirens located throughout the North Zone area during severe weather.

In the event of threatening weather on this day, tests will be postponed. The testing, once completed, will return to the normal schedule at 10 a.m. on the first Wednesday of each month, beginning Oct. 1, 2025.

Please see attached map highlighting the North Zone in Johnson County.
